SWITCH ON ULTRA HAPPINESS

All over the world, Tv viewing is a family affair-a time for togetherness, a time for chit-chat, and a time for sharing a good laugh. And if the television is a Newal DLED TV, there can be no better way to switch on happiness!

Designed to bring together different high technology around a wide color gamut, Localised Dimming, 4k Resolution, and high performance, a Newal DLED TV has a wide palette and is capable of reproducing a really broad array of colors for images that are brighter and superbly detailed.

Special Features

4K UHD Resolution

Newal's 4K DLED models offer a crisp picture with vivid colors, remarkable detail, and stunning sharpness. UHD Resolution refers to 3840 pixels x 2160 pixels bifurcation of the LED screen, which is around 4 times higher than full HD TV, and result in an ultra sharp picture quality. NEWAL DLED Smart TV supports High Definition Resolution, Expanding the TV contrast ratio and colour palette.

Powerful Processor

To make your experience faster and smoother when you use smart TV and surf on the apps and browsers, Newal DLED TVs have provided the highest processor to your TV.

A+ Panel

Enjoy vivid details, exceptional picture quality and life-like colours with superior quality LED panels. This high quality screen ensures almost negligible imperfections, zero light leakage, no spots in the central viewing area and zero dead pixels, thus giving you an experience that's a treat for your senses!

Stylish Frameless Design

Newal offers all models as frameless and the best style and performance. A slim frame and virtually no bezel make this TV less noticeable, allowing it to integrate seamlessly into your existing décor. Enjoy an edge-to-edge screen with fewer distractions from black edges, allowing for a larger image and a more captivating experience.

SMART TV Platform

Get maximum entertainment with the Application Store on your Newal DLED TV - a hub of exciting web applications specially designed for TV. Its user-friendly interface helps you to simply flick and find your favorite applications from a variety of categories including video, music, social networking, games, news, information, and more.

Dynamic Sound System

Enjoy NEWAL DLED TV's dynamic sound system that pulls you into the heart of the action. And it is giving you the best audio quality from all the content without the need for external speakers or sound bars!

Highest Range Color

NEWAL DLED TV comes with one of the best-in-class color gamuts. It reproduces colors with superb real-life accuracy for professional-grade visuals, and we offer ultrafast response times, making them perfect for professional and creative work, or anyone who simply wants to enjoy the very best color fidelity and motion clarity.

Android Operating System

Newal DLED TVs with a built-in Android 11 OS deliver the best smart TV experience with a simple, responsive user interface, and thousands of apps. Stream your favorite music and videos from seven built-in streaming apps, including **Netflix, YouTube, Facebook, Shabakaty, Cinemana and Vodu.**

Highest Peak Brightness

Experience over one billion colors and more with the NEWAL DLED TV and enjoy complete immersion - delivering the total package of connectivity, design, and an incredible viewing experience.

Digital Video Broadcasting

DVB-T2 is a digital terrestrial transmission system developed by the DVB project. It introduces the latest modulation and coding techniques to enable the highly efficient use of the valuable terrestrial spectrum for the delivery of audio, video.

Special Features

Web Surfing

The days one-way interaction are over! Now, browse the internet navigate through one World Wide just by swinging your TV remote!

Built-in Wi-fi

Newal Smart TVs feature Wi-Fi capability that allows you to connect your TV to your home internet instantly. Connecting to Wi-Fi enables you to download streaming applications directly to your TV for unlimited opportunities for streaming, accessing multimedia content, keeping tabs on social media, and more.

Screen Mirroring

Now use Screen Mirroring to project, or mirror, what is on your smartphone (iphone, android), tablet or computer and see it on your TV screen!

HDMI

High-Definition Multimedia Interface, commonly known as HDMI, allows high-definition electronic devices to communicate with each other. What does that mean for you? It means you can connect streaming devices, gaming systems, or even DVD players to allow even more flexibility for how you use your Newal television.

Maxhub & Eshare

Now stream multiple files as media, text & documents from your smart phone, Windows or PC to the TV. Not just that, you can also mirror your TV screen on your smart phone or tablet and just touch their screen to control the TV.

USB Port

Let's you view your pictures as a slideshow or listen to your favorite music via the USB port. Just insert your flash drive into the USB port for the ultimate entertainment.

One Touch Access

With designated buttons for all your favourite streaming applications on the smart remote, it only takes a touch to stream your desired content.

5 Keys Joystick

You can perform volume, channel changes, on and off functions on the TV by using a 5 keys joystick.

Auto Restart

Newal TV sets have auto restart settings. In some cases, it automatically turns on and shows up the last you watch after being unplugged or after a power outage.

Wider Viewing Angel

See the big picture from every angle! With a viewing angle of up to 178°, NEWAL DLED TV displays vivid colours and sharp image when seen from any corner of the room, and is therefore, ideal for family viewing.

NEWAL DLED 4K TV
